## DB9 female to dual DB9 male signal cable

### Classic Application:

- For models TC1013, TC1014, and TC1016P, the CAN FD signals from a single DB9 connector are reconfigured. Originally, pins 2 and 7 represent CAN\_L and CAN\_H, while pins 4 and 8 represent another set of CAN\_L and CAN\_H. After reconfiguration, the signals are separated into two independent DB9 connectors, both standardized with pin 2 as CAN\_L and pin 7 as CAN\_H, ensuring easier connection to the DUT.

Product Code: 010301010336

## Feature Overview

DB9 splitter cable, 1 DB9 female to 2 DB9 male, is an interface cable designed for TOSUN TC1013, TC1014, and TC1016P products, Length: 300 ±20 mm.

### Pin definition

DB9 Female	CH2 to DB9 Male	CH1 to DB9 Male
2 (CAN_L)	2 (CAN_L)	/
7 (CAN_H)	7 (CAN_H)	/
4 (CAN_L)	/	2 (CAN_L)
8 (CAN_H)	/	7 (CAN_H)
